

LADDERS

Holland Ladder & Mfg. Co.
HOLLAND, - MICHIGAN

✓ NOW! REINFORCED
LADDER TOP

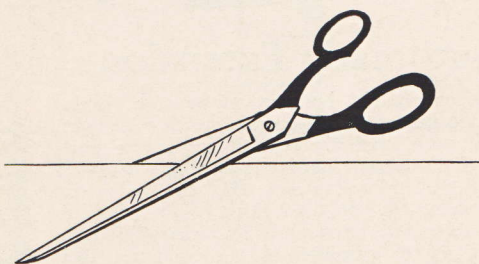

The reinforced Step Ladder top as illustrated above is standard on Holland's "Heavy Duty, The Mechanic, The Holland, and all Orchard Step Ladders." This added feature on Holland Step Ladders eliminates a point of weakness so usual on other ladders.

LADDERS

QUALITY

We pledge ourselves and our facilities to America first; and to the best of our ability to serve our many customers both old and new. We will render as quickly as possible, economical service at the lowest cost commensurate to high quality merchandise.

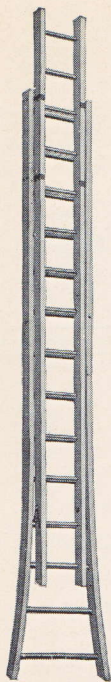

The quality of our product has not been cut, Holland Ladders are as good as ever and will only be changed to further increase their safety and long life. For more than a quarter century Holland Ladders have taken their place in the field, giving safe and long service to the factory, orchard, home and painter trade. Your orders and inquiries will receive our prompt and careful attention.

HOLLAND LADDER & MFG. CO.
HOLLAND, MICHIGAN

Common Extension

Flare or straight bottoms. Without rope and pulley. Side rails are clear straight grained stock, specially selected for ladder purposes. Dimensions: bottom rails, $2\frac{3}{4}$ " to $3\frac{1}{4}$ " wide by $1\frac{5}{8}$ " thick; top rails, $2\frac{3}{4}$ " wide by $1\frac{5}{8}$ " thick.

The rungs are second growth hickory, straight grained and smoothly finished to $1\frac{1}{8}$ " diameter. Set 12" centers, assembled the "Holland" way.

Automatic locks. Soft malleable iron, bolted securely to side rails—no screws.

Hardware of malleable castings and heavy wrought steel, securely bolted and riveted.

Lengths: 18 to 44 ft. Three sections to 66 ft.

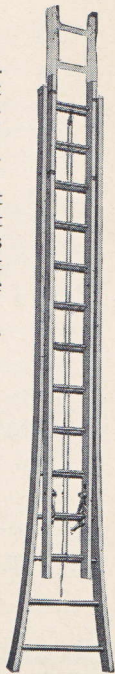

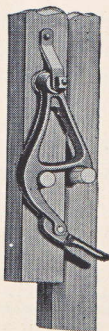

Automatic Extension

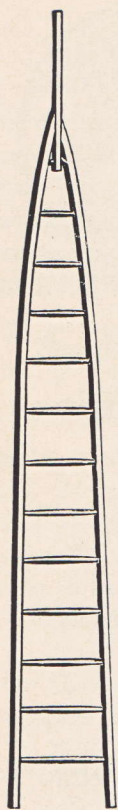

Flare or straight bottoms. Rope and pulley. Roller top guides. The side rails are clear straight grained stock, specially selected for ladder purposes. Dimensions: bottom rails, $2\frac{3}{4}$ " to $3\frac{1}{4}$ " wide by $1\frac{5}{8}$ " thick; top rails, $2\frac{3}{4}$ " by $1\frac{5}{8}$ " thick.

Top rails, $2\frac{3}{4}$ " by $1\frac{5}{8}$ " thick.

The rungs are second growth hickory, straight grained, smoothly finished to $1\frac{1}{8}$ " diameter. Set 12" apart. The hardware is malleable castings and heavy wrought steel. Automatic locks. Soft malleable iron, self acting, securely bolted to side rails—no screws.

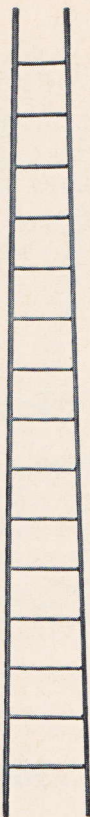

Lengths: 18 to 64 ft. Three sections to 66 ft.

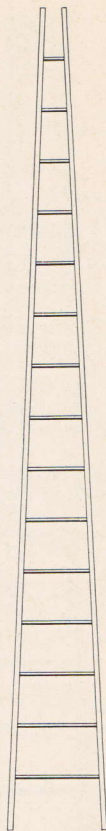

"A"

Side Rails

"C"

Pointed and Open Top Ladders

The same care has been taken in the manufacture of these ladders as in all other "HOLLAND" ladders.

The rails are $1\frac{5}{8}$ " by $2\frac{3}{4}$ " at bottom and tapered to $2\frac{1}{4}$ " at the top. These

ladders are strong, light, and exceptionally handy for orchard work and all outside uses.

Rungs are clear, straight grained, second growth hickory, smoothly finished to $1\frac{1}{8}$ " diameter.

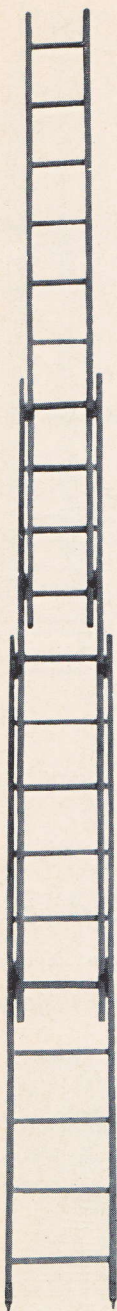

Lengths in stock:

"A" type 14-24 ft.

"B" type 8-22 ft.

"C" type 12-24 ft.

Radio Ladders

A strong light ladder specially designed for radio work. The best and handiest ladder to carry on truck. Furnished in any combination of lengths in either two or three sections.

•

Mason Extension

In demand by contractors. Meets U. S. A. specifications LLL-L-51. This ladder is built of selected ladder grade stock with heavy hardware. Rungs—straight grain, second growth white hickory. Lengths 20 to 44 feet.

•

Mason Singles

Side rails—clear straight grained stock $1\frac{5}{16}$ "x $3\frac{1}{4}$ ". Width: 16" to 20" as ordered. Rungs—straight grain, second growth hickory, set 9" centers or as ordered. Lengths: 10 to 22 feet.

•

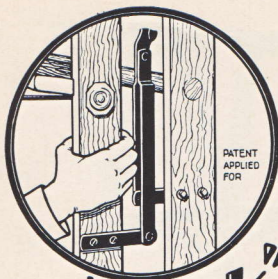

Specials

Platform Ladder—A

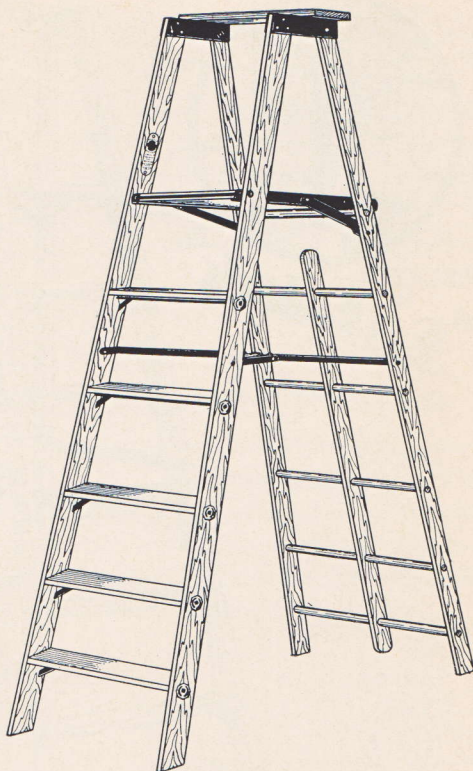

The new Holland Platform Ladder is a general utility ladder. The convenient platform is unusually strong with large working surface. Holland Platform Ladders are built of the finest lumber and materials. Each step is reinforced with metal drive braces and steel reinforcing rod. Equipped with Miller Patented "Saf-Lok." Every shop and factory should have Holland Platform Ladders. Furnished in the following convenient sizes:

Length Overall	Weight	Height to Platform
No. 6	28 Lbs.	4 Ft.
No. 7	35 Lbs.	5 Ft.
No. 8	42 Lbs.	6 Ft.
No. 9	49 Lbs.	7 Ft.
No. 10	56 Lbs.	8 Ft.
No. 12	70 Lbs.	10 Ft.
No. 14	84 Lbs.	12 Ft.

H O L L A N D , M I C H I G A N

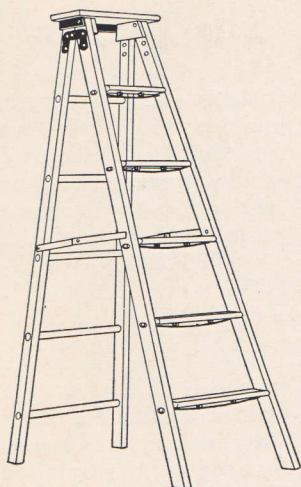

*Safe
Strong
Compact*

Platform Ladder—B

This ladder is lighter in construction than grade A. Top is of hard maple and shaped. Back is constructed with hard maple dowels. Lock is folding type with pail handle, securely riveted. Steps are reinforced with drive braces and steel rods. Lengths over 8 feet equipped with grade A locks.

Length Overall	Weight	Height to Platform
No. 5	18 Lbs.	3 Ft.
No. 6	24 Lbs.	4 Ft.
No. 7	30 Lbs.	5 Ft.
No. 8	36 Lbs.	6 Ft.
No. 9	42 Lbs.	7 Ft.
No. 10	48 Lbs.	8 Ft.
No. 12	60 Lbs.	10 Ft.
No. 14	72 Lbs.	12 Ft.

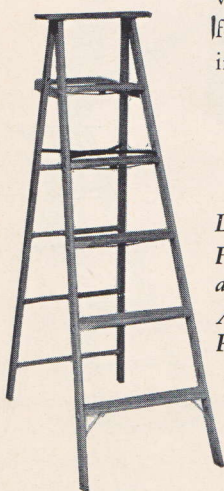

Heavy Duty

A strong high grade ladder made from selected ladder grade materials, with wide strong rails and steps. Each step rodded and trussed, with special angle braces under lower step. Back legs heavily doweled ($1\frac{1}{8}$ " hickory rungs). Wrought iron side locks. Especially adapted for mechanic and factory use. Meets or exceeds U. S. A. specification LLL-L-61. Lengths 6 to 20 feet.

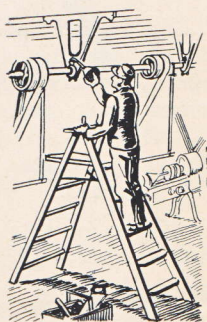

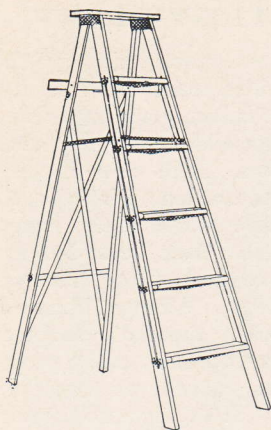

The Mechanic

The Mechanic is especially adapted for mechanics and craftsmen. Extremely long steps and wide top allowing plenty of range for the workman. The back rungs are straight grained hickory, set parallel with the steps in front, allowing both sides to be used. Braced with steel knee angles and heavy four way lock with handle. Made in 4 to 20 ft. lengths.

*Double Ears

and Trussed
All Working
Parts Riveted*

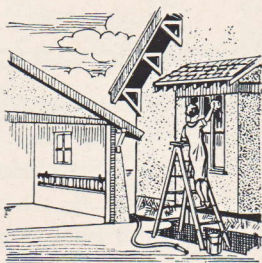

*Double Ears
Full RodDED and Trussed
All Working Parts Riveted*

The Holland

The Holland is fully rodDED and trussed, equipped with heavy four way folding lock and handle. These ladders are extra wide and securely jointed and braced with the "HOLLAND" PERFECT STEP LADDDER assembly.

This ladder is made from selected clear straight grained stock. All extra heavy back legs and braces, secured with galvanized bindings.

Lengths: 4 to 14 feet.

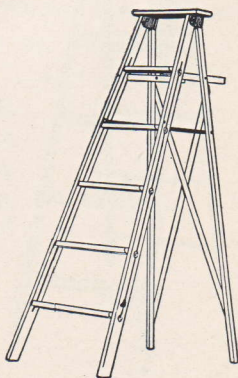

The Household

The Household is a full rodDED ladder and has a four way metal spreader with handle. It naturally is made the "HOLLAND" way. A neat ladder of unusual strength and service. Truly a value.

Made in lengths 4-5-6-7-8 and 10 feet.

*Double Ears—Full RodDED
All Working Parts Riveted*

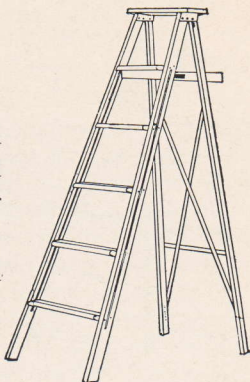

The Sturdy

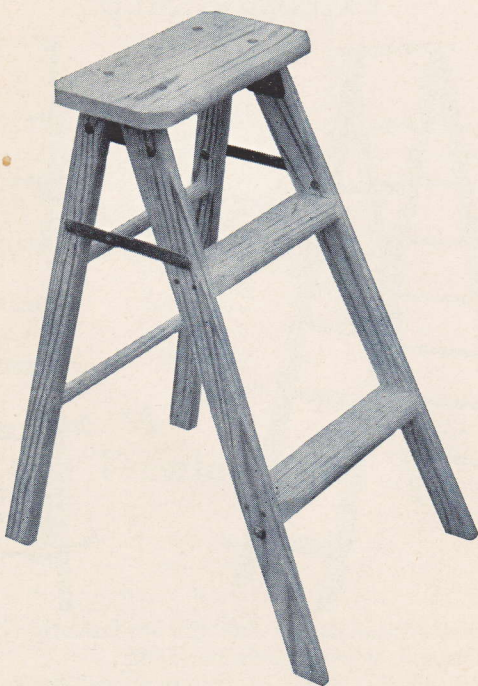

Full Rodded

A strong rigid ladder with rods under each step. Equipped with shelf or spreader lock. For a low priced ladder it is exceptionally well made and a good value, giving service and satisfaction. Made in lengths 3-4-5-6-7 and 8 feet.

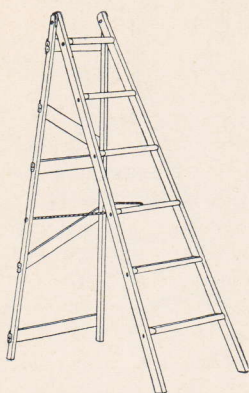

• • •

Step Stool

A substantial high grade two-step ladder stool. Manufactured from clear bright stock.

A very necessary accessory for home and office. Height: 24 inches.

Full Rodde and Trussed

Painters Favorite

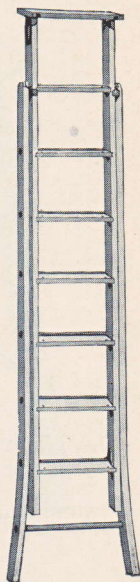

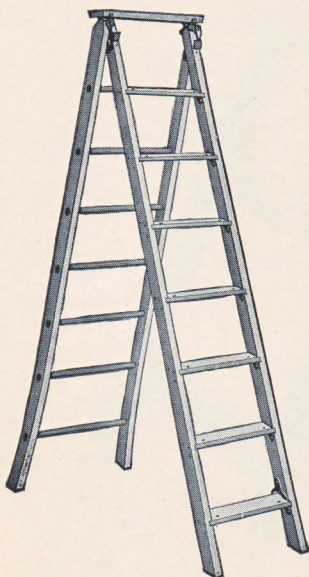

The Favorite is a decorator's ladder designed to give most rigid and efficient service. It is made from bright clear selected stock. The steps are secured the "HOLLAND" way. The back braces are staggered, allowing plank to pass through. Also made with stair attachment.

Lengths:

4-5-6-7-8 and 10 feet.

• • •

Extension Step

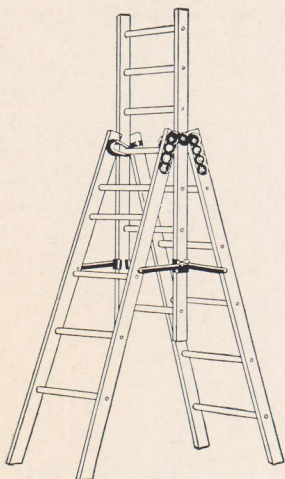

A combination ladder that can be instantly changed into a trestle, step or extension ladder.

Front side of ladder has flat steps and the opposite side rungs. Same selected material and high class workmanship as in the complete "HOLLAND" line.

An ideal ladder for general use.

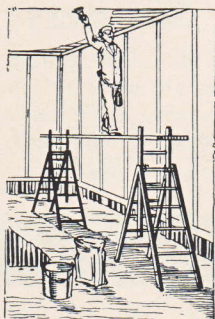

Made in lengths 6-12', 7-14', 8-16', 10-20', 12-24'.

Extension Trestle

This type of extension trestle has an especially designed raising and lowering device. It is made from selected stock and metal parts are heavily galvanized. It is rigid in construction and can be instantly adjusted to different heights. This ladder is suitable for both inside and outside work. Painters should not be without it.

Sizes:
6' extending 9'
8' extending 13'

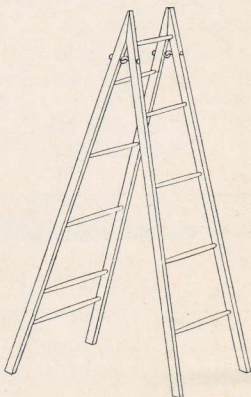

10' extending 17'
12' extending 21'
14' extending 25'

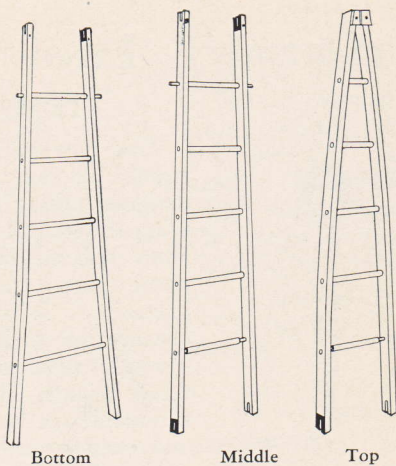

• • •

The "A" Type Trestle

The "HOLLAND" Trestle is manufactured from clear bright stock and made the "HOLLAND" way. Rungs of selected hickory. Hinged with heavy eye bolts. Rungs staggered to allow six inch adjustment for elevation of planks.

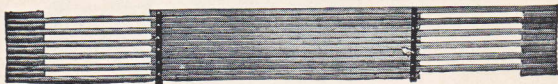

Lengths: 6 to 20 feet.
Both sides measured.

Sectional Ladder for Window Washers

These are made in 6 foot sections. The material of which these ladders are made is rigidly inspected. All sections are interchangeable. These ladders are made in the same careful manner and with the "HOLLAND WEATHER TIGHT ASSEMBLY."

Extension Planks

The "HOLLAND" Extension Plank is made from a selected grade of clear straight stock worked to our special pattern.

Only edge grain material used, insuring a maximum of strength. Ends securely reinforced with rods.

Lengths:

6' extends $10\frac{1}{2}'$
7' extends 12'

8' extends $13\frac{1}{2}'$
10' extends $17\frac{1}{2}'$

Scaffold or Staging

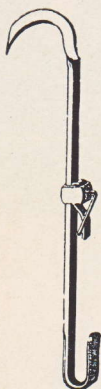

Made from the finest stock nature produces. Can be had in various widths. Unless otherwise specified 20" width is furnished. Made the "HOLLAND" way.

Lengths: 12 to 22 feet. Longer on order.

The Orchard Special

A general outside ladder designed to withstand hard usage and still retain its rigid strength. It is well manufactured from clear bright stock and full rodded and trussed. It has double thickness at all points of contact to keep it from sinking into the soil. Strong but very light.

Lengths: 5-6-7-8-9 and 10 feet.

The Orchard Pippin

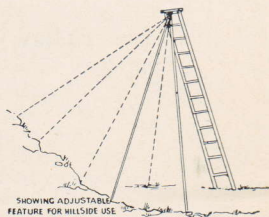

This orchard ladder of the four legged type was designed by a practical fruit grower and possesses features not found in other ladders. The patent construction allows the back legs to open wide and also to place one leg farther out than the other where soil conditions make it necessary. This principle of construction positively overcomes all weave or distortion.

This ladder is adapted to all conditions of orchard. Stands safe and level on steep hillsides, stoney or well tilled soils. Light and easy to handle.

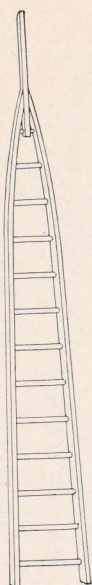

Sets itself almost automatically.

Lengths:
6-7-8-10 feet.
12 to 20 feet on order.
